

**Rider University School Psychology Program
Field Supervisor Evaluation of Intern**

Intern: Jennifer Aussicker

Supervising Psychologist: Hilary Harvey

Date: 12/18/2024

Directions: Ratings are based upon supervisor observation and/or reports from other school personnel or families. From the scale, choose the number which best represents the intern's competence in that area.

- 1- Competence is not evident and further training is warranted.
- 2- Competence is considered below average, but with supervision and experience skill development is expected.
- 3- Competence is average for level of functioning.
- 4- Competence is above average.
- 5- Competence is superior/very well developed.
- NA- Insufficient evidence at this time to make a rating.

II. DATA-BASED DECISION MAKING AND ACCOUNTABILITY

Score: 4.25

School psychology interns have knowledge of varied methods of assessment and data collection methods for identifying strengths and needs, developing effective services and programs, and measuring progress and outcomes. As part of a systematic and comprehensive process of effective decision making and problem solving that permeates all aspects of service delivery, school psychology interns demonstrate skills to use psychological and educational assessment, data collection strategies, and technology resources and apply results to design, implement, and evaluate response to services and programs.

Comments: Please see attached.

III. CONSULTATION AND COLLABORATION

Score: 5

School psychology interns have knowledge of varied methods of consultation, collaboration, and communication applicable to individuals, families, groups, and systems and used to promote effective implementation of services. As part of a systematic and comprehensive process of effective decision making and problem solving that permeates all aspects of service delivery, school psychology interns demonstrate skills to consult, collaborate, and communicate with others during design, implementation, and evaluation of services and programs.

Comments: please see attached.

IV. Element 4.1 INTERVENTION AND INSTRUCTIONAL SUPPORT TO DEVELOP ACADEMIC SKILLS Score: 4.25

School psychology interns have knowledge of biological, cultural, and social influences on academic skills; human learning, cognitive, and developmental processes; and evidence-based curriculum and instructional strategies. School psychology interns, in collaboration with others, demonstrate skills to use assessment and data-collection methods and to implement and evaluate services that support cognitive and academic skills.

Comments: Please see attached

IV. Element 4.2 INTERVENTION AND MENTAL HEALTH TO DEVELOP SOCIAL AND LIFE SKILLS Score: 5

School psychology interns have knowledge of biological, cultural, developmental, and social influences on behavior and mental health; behavioral and emotional impacts on learning and life skills; and evidence-based strategies to promote social-emotional functioning and mental health. School psychology interns, in collaboration with others, demonstrate skills to use assessment and data-collection methods and to implement and evaluate services that support socialization, learning, and mental health.

Comments: please see attached.

V. Element 5.1: SCHOOL-WIDE PRACTICES TO PROMOTE LEARNING

Score: 5

School psychology interns have knowledge of school and systems structure, organization, and theory; general and special education; technology resources; and evidence-based school practices that promote academic outcomes, learning, social development, and mental health. School psychology interns, in collaboration with others, demonstrate skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for children and others.

Comments: Please see attach 1 -

V. Element 5.2: PREVENTATIVE AND RESPONSIVE SERVICES

Score: 4.25

School psychology interns have knowledge of principles and research related to resilience and risk factors in learning and mental health, services in schools and communities to support multitiered prevention, and evidence-based strategies for effective crisis response. School psychology interns, in collaboration with others, demonstrate skills to promote services that enhance learning, mental health, safety, and physical well-being through protective and adaptive factors and to implement effective crisis preparation, response, and recovery.

Comments: Please see attach 1

VI. FAMILY-SCHOOL COLLABORATION SERVICES

Score: 4.75

School psychology interns have knowledge of principles and research related to family systems, strengths, needs, and culture; evidence-based strategies to support family influences on children's learning, socialization, and mental health; and methods to develop collaboration between families and schools. School psychology interns, in collaboration with others, demonstrate skills to design, implement, and evaluate services that respond to culture and context and facilitate family and school partnership/interactions with community agencies for enhancement of academic and social-behavioral outcomes for children.

Comments: Please see attach!

VII. DIVERSITY

Score: 5

School psychology interns have knowledge of individual differences, abilities, disabilities, and other diverse characteristics; principles and research related to diversity factors for children, families, and schools, including factors related to culture, context, and individual and role differences; and evidence-based strategies to enhance services and address potential influences related to diversity. School psychology interns demonstrate skills to provide professional services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds and across multiple contexts, with recognition that an understanding and respect for diversity in development and learning and advocacy for social justice are foundations of all aspects of service delivery.

Comments: Please see attach!

VIII. Element 8.1: RESEARCH AND PROGRAM EVALUATION

Score: 4.5

School psychology interns have knowledge of research design, statistics, measurement, varied data collection and analysis techniques, and program evaluation methods sufficient for understanding research and interpreting data in applied settings. School psychology interns demonstrate skills to evaluate and apply research as a foundation for service delivery and, in collaboration with others, use various techniques and technology resources for data collection, measurement, analysis, and program evaluation to support effective practices at the individual, group, and/or systems levels.

Comments: Please see attach!

VIII Element 8.2: LEGAL, ETHICAL AND PROFESSIONAL PRACTICE

Score: 5+

School psychology interns have knowledge of the history and foundations of school psychology; multiple service models and methods; ethical, legal, and professional standards; and other factors related to professional identity and effective practice as school psychology interns. School psychology interns demonstrate skills to provide services consistent with ethical, legal, and professional standards; engage in responsive ethical and professional decision-making; collaborate with other professionals; and apply professional work characteristics needed for effective practice as school psychology interns, including respect for human diversity and social justice, communication skills, effective interpersonal skills, responsibility, adaptability, initiative, dependability, and technology skills.
